

Android TV

Android TV can be easily connected to your MirrorVue with a LAN cable or through your wireless Wi-Fi network. Your Android box can be installed behind your TV, or in another room controlled remotely with the built-in IR receiver. Now you can also access all functions and capabilities with our waterproof Stainless Steel Keyboard or our new wireless Portable Android Keyboard.

Imagine if you could browse the internet, watch the latest HD movies, check your email, Facebook, and Twitter, all from the comfort of your bathtub.

All of our products: Evervue bathroom TV, MirrorVue, DecoVue and Spavue can now be optionally equipped with an Android TV (2.3 version), offering you many exciting functionalities. The Evervue Android system will transform your bathroom or Mirror TV into a complete media center.

To keep updated and informed, Google Android account users can also sync the information from their smartphone to the bathroom TV.

KB-80 STAINLESS STEEL KEYBOARD (BUILT IN MOUSE PAD)

Our newly designed waterproof KB-80 Stainless Steel Keyboard is the perfect complement to any Android TV. The KB-80 provides incredible durability with built-in mouse pad and recessed mount design. This stainless steel keyboard is the reliable and waterproof for those areas your average keyboard would not dare to go.
